DCN-DISVCS Discussion Unit with Voting and Channel Selection

The Discussion Unit with Voting and Channel Selector enables participants to speak, register a request-to-speak, listen to the speaker and vote. A socket is provided to connect the pluggable microphones (DCN-MICS and DCN-MICL, to be ordered separately). The unit has five voting buttons for all types of voting. The yellow indicator rings around the voting buttons are used to prompt users to register their presence, to start voting and to confirm their vote. When the unit's attendance LED is yellow, it indicates the delegate is present. The unit has a built-in channel selector, which makes it suitable for discussions in which more than one language is used and simultaneous interpretations are available. The channel selector includes up and down channel select keys and a display showing the number and the abbreviation of the languages, enabling rapid selection of the required language channel. The unit also accommodates two headphones connections. The built-in loudspeaker is muted when the microphone is on to prevent acoustic feedback. A variety of rims are available to allow matching to the interior, (DCN-DISR, to be ordered separately). The unit can be used as a delegate unit, as a chairman unit (DCN-DISBCM chairman buttons to be ordered separately) or as a delegate unit with auxiliary button. The versatile auxiliary button can be used as an usher call, for example.

- ▶ Low susceptibility to mobile phone interference
- ▶ Compact, attractive and ergonomic design
- ▶ Pluggable microphone
- ▶ Five voting buttons
- ▶ Channel selector with number and abbreviated Channel name
- ▶ Built-in loudspeaker
- ▶ Headphone output level reduction to prevent acoustic feedback. (active when listening to the floor and when the microphone is on)
- ▶ Usable as a delegate unit or as a chairman unit

To lock the loop-through cable, a cable clamp is available (DCN-DISCLM, to be ordered separately). The unit is available in light- and dark-colored bases.

Functions

Controls and Indicators

- Five voting buttons with indicator rings around the buttons
- Unit activity / delegate presence indicator
- Alphanumeric display for language channel selection with number and abbreviated channel name
- Microphone button with a red, green or yellow illuminated ring. Red indicates microphone is active, green indicates request-to-speak accepted, and yellow indicates 'VIP'.
- VIP indicator is lit when the delegate is part of the notebook (only available if PC Software is used)
- Headphones volume control buttons
- Recessed 'De-init' switch

Interconnections

- Socket for pluggable microphone
- Two 3.5 mm headphone sockets (0.14 in) stereo jack type
- 2 m (78.7 in) cable terminated within a molded six-pole circular connector.

- Six-pole circular connector for loop-through connections
